

iGT UNC / iGT INC Consultation Response

Date	25 September 2009
Reference	iGT025 Consultation
Title	Changes to the Window for the Submission of Valid Meter Readings
Respondee	Jenny Rawlinson - GTC/GPL/UGI
Position on the Modification	Support Modification

Facilitation of the relevant objectives

GTC agrees that this modification will further the relevant objectives as defined in Standard Condition 9 of the Gas Transporters Licence by ensuring that more valid Meter Readings are available for the calculation of AQ values and also encourage more accurate I&C CSEPs reconciliations.

GTC would also agree that this modification would ensure greater accuracy of energy and cost allocations and therefore, so far as is consistent with sub paragraph (a) to (c) of Condition 9 will secure effective competition between relevant shippers and suppliers.

Additional Information and Comments

With regards to the implementation timescale, we would require the maximum period of six months to allow us to build this into our system change programme.

Completed forms should be returned to the iGT UNC Representative, Gemserv Ltd at iGT-UNC@gemserv.com or faxed to 020 7090 1001
