Responses invited by: 8th May 2015

Respondent Details

Name: Kristian Pilling

Organisation: SSE Energy Supply Limited

Support Implementation Yes

Please briefly summarise the key reason(s) for your support / opposition

We support this Modification because it will align this Individual Network Code with those processes which are changing as a result of Single Service Provision.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

Yes

Please state any new or additional issues that you believe should be considered

N/A

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

At the point Single Service Provision is implemented it is important that all processes within the scope of Nexus are aligned to provide clear governance on the correct procedures. This modification supports this position by removing the processes within this INC that would be contradictory to Nexus arrangements; this modification therefore better facilitates Relevant Objective (f).

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

We have not identified any development or ongoing costs to implement this modification.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

This modification should be implemented at Nexus go-live to ensure the changes to this INC align with the new processes to be delivered with Nexus.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

Yes

Further Comments

Is there anything further you wish to be taken into account?

No additional comments.
