Neutral	<input type="checkbox"/>
Do Not Support	<input type="checkbox"/>

Please briefly summarise the key reason(s) for your support / opposition

Though we support the implementation of this Modification, we believe there should be a dependency on UNC0819 also being approved and implemented.

Authority Direction Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be an Authority Direction Modification?

Yes, we agree that this should be an Authority Direction Modification, in line with the UNC equivalent, UNC0819.

Please state any new or additional issues that you believe should be considered

We do not believe there are any new/additional issues.

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree that this Modification has a positive impact on Relevant Object (D). We also agree that the IGT UNC Modification has a positive impact on Relevant Objective (F) as without it would mean further costs in the UNC 0819 ROM to exclude IGTs.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

We do not envisage any ongoing costs for this Modification.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

We believe that this Modification should be implemented, should the Authority approve it, as close to UNC0819 as possible. We also believe that should UNC0819 **not** be implemented, neither should IGT168.

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

Yes.

Further Comments

Is there anything further you wish to be taken into account?
