

Summary of IGT UNC Workgroup – 14th November 2024

Purpose:

This paper provides Panel members with a summary of IGT UNC Workgroup discussions each month. Please note that any Modification(s) subject to review at this Panel meeting are not reflected in this document due to them already being on the Panel agenda. For a full extract of the discussion please refer to the Draft minutes [here](#).

IGT UNC Modifications:

[IGT165 – Independent Shrinkage Expert and Independent Shrinkage Charge](#)

The Proposer is currently waiting on legal drafting to be updated for related UNC Modification [0843 - Establishing the Independent Shrinkage Charge and the Independent Shrinkage Expert](#) before any further work can take place on this Modification. The next UNC0843 Workgroup Meeting will be held on 27th November 2024, with another scheduled for 17th December 2024. The Proposer has provided the Code Administrator with the latest version of the legal text, although it is expected to be changed further at the next scheduled Workgroup meetings. It should be noted that UNC0843 has recently been amended, and we therefore expect that the legal drafting will be amended to account for this.

Pre-Modification and Cross UNC Code Discussion:

[UNC 0854 - Revision of Virtual Last Resort User and Contingent Procurement of Supplier Demand Event Triggers:](#)

Xoserve asked for an update on the IGT UNC equivalent Modification to UNC0854. Michelle Brown (Energy Assets) agreed to sponsor this Modification at the September Workgroup meeting. The Code Administrator confirmed it will follow up with Michelle Brown for an update, including to find out when to expect this Modification to be raised. The Chair also placed an action on IGTs to determine whether they want an IGT UNC equivalent Modification to UNC0854 and what next steps are to be taken.

[UNC 0899 - To ensure the suite of Network Exit Agreements \(NExA\) Modifications has been implemented, taking into account the changes introduced by 0804:](#)

Susan Helder (Northern Gas Networks) presented the list of proposed Housekeeping Changes to the Workgroup. There was discussion over the amendment to UNC Section 6.5 (a) and whether the change in wording would constitute an impact on a current process. Xoserve confirmed that they would review this proposed change and provide feedback at the December Workgroup meeting. Charlotte Gilbert (BUUK) agreed to sponsor an IGT UNC equivalent Modification for UNC0899.
