Please briefly summarise the key reason(s) for your support / opposition

As fax is no longer used, it is appropriate to remove references to it. The proposed housekeeping changes, correcting grammar and links, will also improve the Code.

Self-Governance Statement

Do you agree with the Modification Panel's determination with respect to whether or not this should be a self-governance modification?

Agree this meets criteria for Self Governance

Please state any new or additional issues that you believe should be considered

None identified

Relevant Objectives

How would implementation of this modification impact the relevant objectives?

We agree with the proposer that this positively impacts Objective F by ensuring the Code is kept up to date and relevant.

Impacts and Costs

What development and ongoing costs would you face if this modification was implemented?

Xoserve has indicated changes are required to the IDL & IQL files, so there will be costs to change the systems sending & receiving these files.

Implementation

What lead time would you wish to see prior to this modification being implemented, and why?

Code Implementation should align with implementation of the associated Xoserve system changes (XRN5702) – tbc – to avoid any parties being unable to meet their obligations (in particular where the updated Code would require them to send/receive email address data)

Legal Text

Are you satisfied that the legal text will deliver the intent of the modification?

The proposed legal text will deliver the aims of the modification

Further Comments

Is there anything further you wish to be taken into account?

none
